Monoflo for the Baking Industry

> *Monoflo bakery trays and dollies are engineered to perform. Thirty years of baking industry knowledge go into every product we ship.* <

Monoflo History & Experience

Monoflo has more than 30 years of experience in the materials handling industry. From reusable distribution totes to the collapsible products we pioneered, Monoflo is a leading manufacturer of high-quality, injection-molded plastic containers and trays. Our wide array of clients – from large wholesale bakeries to national retailers – count on us to keep business moving. As part of our commitment to continuously provide what our clients need, we are pleased to introduce our extensive system of trays and dolly options for the baking industry.

Our Manufacturing Process

At Monoflo, we provide our customers with the best products at the lowest possible price. Through our investment in state-of-the-art injection molding technology, prime raw materials, and meticulous in-house testing, we consistently offer our customers quality and affordability.

Our ISO-certified manufacturing facility is the most efficient in the industry, operating 24 hours a day, seven days a week. Monoflo's high-performance equipment and fast-cycling molds enable us to achieve faster production cycles to ensure on-time delivery.

Smart investment – not lower investment – is what makes every one of our products affordable.

Bakery Trays and Dollies

Monoflo's bakery trays and dollies are made to store, transport and protect delicate baked goods. Our trays are available in multiple footprints and are completely compatible with other trays in circulation. Features and benefits of our bakery trays:

- > 100% compatibility with industry-standard automation and existing trays for seamless integration
- > Generous inside radius and smooth surfaces protect against bag snag
- > Reinforced foot and wear box provide increased stability during stack conveyance
- > Made using FDA-approved materials
- > Customizable with colors and logo applications
- > 100% recyclable

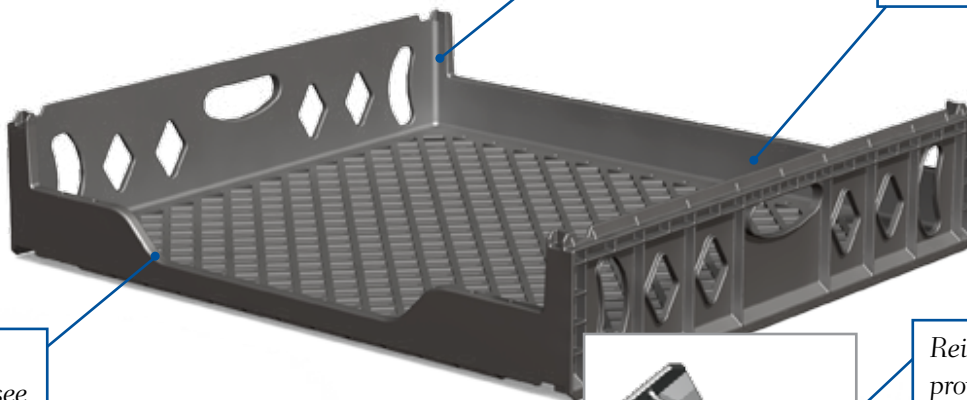

Easy stacking
without sagging
