

# New collapsible container that's compatible with straight wall products!

Ergonomic handles

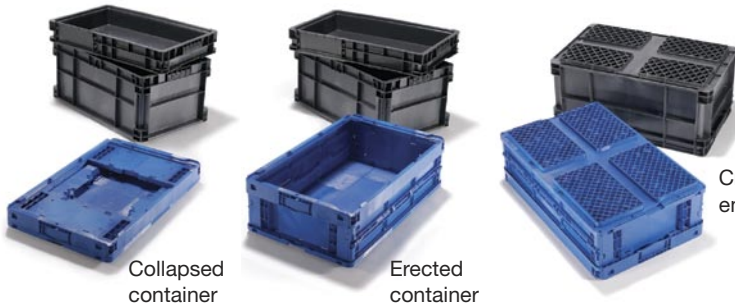

The new, durable Monoflo collapsible container is interchangeable with existing straight wall containers.

**Unparalleled flexibility** Monoflo's new reusable, collapsible container is available in multiple sizes and is compatible with all existing straight wall containers, including Monoflo's existing collapsible product line.

Take advantage of the many benefits!

- Collapsible functionality brings significant **savings on inbound freight.**
- Inside dimensions match competitive straight wall containers, **allowing existing dunnage from a straight wall container to transfer to a collapsible container of the same dimensions.**
- Combines the inside cube utilization of a straight wall container with a collapsible container's **lower transportation costs and warehouse storage costs.**
- Deep ergonomic handles allow **easier lifting.**
- Available in four sizes, with and without attached lids. All footprints are designed to **"cube out" a 48" x 45" AIAG pallet.**

Switch to this new material handling product for your manufacturing and distribution systems.

**Available sizes:**

- 24" x 15" x 7"
- 24" x 15" x 11"
- 24" x 15" x 14"
- 12" x 15" x 7"

**Monoflo's new RCX Reusable Container vs. Comparable Straight-Wall Container**

(Based on comparison of 24" x 15" x 14" products)

Based on shipping 2,000 units	RCX	Straight Wall
Inbound freight charge	\$1,250	\$2,600
Freight savings per trip	\$1,350	
Freight savings per RCX unit per trip	\$ .675	
Annual savings per unit	\$ 6.75	(Based on 10 average unit trips per year)
